Independent Employment Bureaus Protest Against City Encroachment on Their Business, and Are Indorsed by Large Employers.

The Administrative Board Water Department investigating committee, composed of John Hirschberg and Henry C. Beck, recommended to the board yesterday that all service connections on Broad Street, between Jefferson and Harrison Streets, be required to be not smaller than three-quarters of an inch lead pipe on any renewals or new pipe signed for from the main to the meter. They recommended further, that no service connection smaller than five-eighths of an inch be hereafter permitted in the city.

The board entered an order putting these recommendations into effect at once. It is regarded as a step in the direction of placing the Water Department on a more efficient basis. Most of the service connections in the city at present are one-half inch. Considerable trouble has been experienced with these pipes because of their small size. They frequently become choked with sediment and interfere with the distribution of water. It is believed that to a large extent, obviate this difficulty.

TWO PETITIONS FOR APPEAL ARE REJECTED

Orange Circuit Court Sustained in Refusing Injunction in Fish Ladder Case.

COMPANY NOT HELD LIABLE

Fact That Station Was Robbed and Operator Murdered No Proof That Company Did Not Furnish Safe Working Place.

The Supreme Court of Appeals yesterday refused to grant the petition of C. C. Tallaferr, who asked for a mandamus against the Board of Supervisors of Orange County requiring the board to prescribe some specific form of fish ladder to be used on the Rapidan River.

The appeal is from the decision of the Circuit Court of Orange, which refused to issue the mandamus, and to order fish ladders constructed at the expense of the owners of certain dams on the river. The fish ladders were ordered to be constructed at the expense of the dam owners on the ground that they were obstructing the free passage of fish up and down the river during the months of March, April, May and June.

An appeal was also refused in the case of C. R. Harris, Jr., administrator of Richard W. Harrison, deceased, vs. the Chesapeake and Ohio Railway Company. This case came up from the Circuit Court of Loudoun County, where a telegraph operator in the employ of the railroad at Scottsville, also employed as a fisherman, was killed in the station on the night of August 24, 1913, by robbers, who attempted to burglarize the safe. His administrator sued to recover \$16,000 damages for the death of his son. The plea was that the company had not furnished a safe place to work in. The defendant corporation demurred to the declaration. The murder was sustained and the suit dismissed by the court on June 22.

War Conditions in Europe Have Largely Increased Demand for Fuel.

Says Physical Conditions Are Much Improved, Harmony Exists and Prospects Are for Most Profitable Season in Many Years.

BODY OF J. E. SUWARD IS TAKEN FROM RIVER

Had Been Missing From His Home Since Last Sunday.

IDENTIFIED BY HIS SON

No Report of His Disappearance Had Been Made to Police, Family Supposing He Was Visiting Relatives in Baltimore.

The body of the middle-aged German man, which was pulled from the river at the foot of Twelfth Street early yesterday morning, was yesterday afternoon identified as that of J. E. Suward, 1309 Dance Street. The identification was made by George Suward, a son.

According to the story told by the son, Suward had been missing from his home since Sunday. No report of the disappearance had been made to the police, the family supposing that he had probably gone to visit relatives in Baltimore.

Dr. Taylor saw the body a short time after it was recovered from the river, and then said that he thought it had been in the water for a couple of days. From this it is supposed that Mr. Suward fell in or was thrown into the river some time Sunday. The body was discovered floating near the north side of the river about 4 o'clock in the morning, and was drawn out without difficulty. A bunch of keys and a German newspaper were the only articles which Detective Sergeant Wiley found in the pockets when he searched them.

No funeral arrangements had been made last night, pending the arrival of relatives from Baltimore. It is expected that the funeral will take place from the residence of the family tomorrow afternoon. Interment will probably be made in Riverview Cemetery.

The Mayor was given close attention by more than 100 members of the club.

On August 20 the Rotary Club will take possession of Broad Street Park. A baseball game will be played, but the club will have the management of every detail. It will be truly a rotary occasion.
